Same Fine Studebaker Coach —but at a new low One-Price price

BECAUSE all Studebaker cars are manufactured on the one-price basis, we have been able to reduce the price of the Standard Coach without sacrificing any of the equipment or quality which made it a big car at a higher price.

Scientific design, better materials, and finer craftsmanship distinguish it. And the following self-evident superiorities make it more valuable than the newest "yearly models":

Excess Power—According to the rating of the National Automobile Chamber of Commerce this is the most powerful car of its size and weight.

Abundant Room—Room to stretch your legs—room to enter or leave without disturbing occupant of folding seat.

Sturdy Body Construction—Fine northern ash and hard maple are used. We pay a premium to get the best quality steel.

Full-size Balloon Tires—for which the steering gear, fenders and even the body lines are specially designed.

Automatic Spark Control—eliminating the usual spark lever on steering wheel.

Safety Lighting Control—on the steering wheel.

Instruments—including 8-day clock, gas-line gauge, speedometer, oil-pressure gauge and ammeter, in single grouping under glass, on beautiful silver-faced dial.

Improved One-piece Windshield—automatic windshield cleaner, weather-proof visor, rear-view mirror, cowl lights and cowl ventilator.

Coincidental Lock—to ignition and steering wheel, which serves to reduce the theft insurance rate on Studebaker cars.

New-type Cowl Ventilator—foot operated.

There are only two cars manufactured on the one-price basis—the Studebaker in the fine-car field, and the Ford in the low-price field. Only in these two cases does one company in its own plants and with its own centralized organization make all bodies, all engines, all clutches, steering gears, differentials, springs, gear sets, gray iron castings, and drop forgings.

Studebaker has no "yearly models," but instead keeps its cars constantly up to date. Therefore this Standard Six Coach is ahead of the newest "yearly model," yet owners are protected from the artificial depreciation which has cut millions of dollars from the resale value of many makes during the past 30 days.

Vacationists Praise Hollywood's Wonderful Vacation Tours

"Wonderful Vacation!" "The Trip of my Life!" "The best time I ever had." "Go and see for yourself."

These words are typical of what hundreds of vacationists had to say on their return from the summer vacation tours to Hollywood-by-the-Sea.

Since the first trip in June, more than 2000 from different parts of the country have spent their vacations at Florida's All-Year Resort City. Of this number, nearly half have come from New York by boat.

The Hollywood Vacation Tour and Hollywood itself have made good doubly with Florida's summer-time guests. Satisfaction is a cold term to apply to their enthusiasm as they picture what they did, what they enjoyed, and what they saw on their memorable trip.

Hollywood Proves Revelation

But the 3-day cruise down the Atlantic Coast was but a curtain raiser to the real vacation. Down at Hollywood the vacationists were whisked in a round of sight-seeing and entertainment which kept them spinning for eight days. In motorboats, they skimmed over Hollywood's wonderful waterways, built from Florida's inland waterway, a system of canals, channels, lagoons, and lakes that out-venices Venice. By day, they golfed on Hollywood's splendid links; by night, they danced in the Casino of Hollywood's Country Club with its light tinted dancing floor, and automatically folded their roof.

Then there was always the dip, day or evening, in the surf of Hollywood's clean, palm-shaded beach.

They found that Hollywood Beach with its Broad Walk and its brilliantly decorated \$250,000 bathing casino is the loadstone of holiday makers all along this Golden Shore of Florida—the seaside resort for the entire back country.

Hollywood a Place to Live

Every one was amazed at what they saw in reality and in the making. They marveled at the wonder of what is happening on this miracle-working stretch of Florida coast, this new haven from the stress of seasons.

Their surprise began with the summer climate of Hollywood. They felt the significance of the fact that the average summer temperature of Hollywood is 80°.

They found Hollywood a real city, built in less than four years from wasteland, mangrove swamp, tomato land and pine ally. They found it a viable city with fine coral streets, artfully lighted, parks and parkways, modern business buildings, up-to-date hotels and apartment houses, schools and genuine homes—exclusive homes and modest homes, but all beautiful in architecture and color.

Enjoy a Vacation and see Florida too

Vacation time for most of us in the northland is coming to a close. But you who still have vacation to spend can spend it most advantageously by taking one of the Hollywood \$100 vacation tours. These specially conducted trips are the most at the least expense. One hundred dollars includes every expense from the time you get on the boat at New York to the time you land on the return trip—transportation on boat and motor bus—meals and berth on the boat—meals and living quarters at the hotel—all entertainment and recreation.

Compare this with any vacation you have considered in cost and promise. Then add to it the opportunity of seeing Florida and the wonder of it—the Florida of which whole nation is talking. The vacation is narrowing the chancetogo. Act quickly. Decide to vacation at Hollywood, and act on your decision.

MRS. WM. BUTTS WAS VERY SICK

Gives Full Credit to Lydia E. Pinkham's Vegetable Compound for Remarkable Recovery

Wellington, O.—"I took Lydia E. Pinkham's Vegetable Compound to make me strong. I was troubled with my back and sides hurting me. I could not do my work, and whenever I caught cold it made me irregular. Since I have taken the Vegetable Compound my side and back don't bother me and I can do my housework and care for my children now, where before I did not feel like doing anything or going around. After my sickness was born about four years ago I saw an advertisement in the paper about the Vegetable Compound. I knew it would help me, but I was afraid to try it because people said it would help you to have children and I knew I was having children fast enough. But I became stronger from taking it and my husband says I look like a live woman instead of a dead one. When Spring comes I am going to take your Blood Medicine as I am very thin. I will answer letters from any woman who wishes to ask about your medicine."—Mrs. WILLIAM BUTTS, Wellington, Ohio.

Are You on the Sucker List?

Doubtless you have heard about the sucker list.

On this list are the names of those who are regarded as easy picking by the smooth talking stock promoter—by the clever salesman who promises big profits—the man who'll make you rich in a day, but instead makes you poor—who'll double your worth over night, but doesn't.

Perhaps your name is on the list, who knows?

Anyway, investigate before you invest. Get the facts and get them from a reliable source.

If you do this, you will never lost your savings.

Consult your banker before investing. He knows good investments and will gladly advise with you.
